To the Hon. W. A. Gordon, K.C., M.P.,
Minister of Labour.

Sir,—I have the honour to submit the Fifth Annual Report on Co-operative Associations in Canada as prepared in the Labour Intelligence Branch. The arrangement of the report is somewhat different to earlier volumes on the same subject, the bulk of the associations being grouped in two main divisions—marketing and purchasing—which plan it is believed will give a clearer view of the development of the co-operative movement in the Dominion.

I have the honour to be, sir,

Your obedient servant,

H. H. WARD,
Deputy Minister of Labour.

REPORT ON CO-OPERATIVE ASSOCIATIONS

INTRODUCTORY REMARKS

For this, the Fifth Report on Co-operative Associations in Canada, a great deal of the information was secured from returns made by the respective societies to the Economics Branch of the Federal Department of Agriculture, which branch is now engaged in preparing an analytical report on farmers' business organizations operating in Canada. For this reason, and also to avoid duplication, the Department of Labour is confining the present publication to a directory of co-operative associations. Where the request for information remained unanswered, and it was felt that the society is still in existence, its name is retained in the report, the particulars supplied for 1931 being repeated. In such cases the membership figures are printed in italics. The arrangement of the associations differs from the grouping in the previous year, there being in the present report two main divisions embracing respectively "Marketing" and "Purchasing" associations, the first mentioned section being subdivided according to commodities handled; the remaining two definite groups are under the headings "Credit and Savings" and "Community Hall Societies." The list of associations closes with a miscellaneous section, which includes the names of organizations which are formed for bargaining, educational or social purposes. While most of the associations whose names appear in the report are registered under the provisions of provincial legislation pertaining to co-operative societies, there are in Ontario a large number of unincorporated companies and clubs doing business co-operatively, and in addition there are a considerable number of joint stock companies, formed, owned and operating in a co-operative way, and which are incorporated under the Ontario Companies Act. Occupying first place in the list of associations is the name of the Co-operative Union of Canada, a Dominion-wide organization which was established in 1909 with a view to federating co-operative bodies and to propagate co-operative principles. The Union has 42 societies in affiliation, an increase of 4 as compared with the number recorded in 1931.

MARKETING ASSOCIATIONS

First in the Marketing group appears the name of the Canadian Livestock Co-operative, Limited, which has in affiliation what is termed the Maritime Section with branches in the three eastern provinces, as well as provincial sections in Manitoba, Saskatchewan and Alberta, the whole comprising 324 local shipping associations. The United Farmers' Co-operative Company, Limited, of Ontario, and the Quebec Federated Co-operative are also affiliates of the Canadian Livestock Co-operative for the purpose of marketing live stock. The Quebec Federated Co-operative, with a membership of 10,000, and whose name appears in this section, has departments for the various phases of co-operative activity, but the Quebec societies in this section are engaged in the marketing of live stock.

In the Sheep and Wool section the Canadian Co-operative Wool Growers is given first place followed by the names of its eleven affiliates and the names of the localities in which the association has wool collecting and grading stations.

Each of the nine provinces of the Dominion are represented in the Dairy Products group. Most of the associations in the province of Quebec are affiliates of the Quebec Federated Co-operative. The strongest association numerically in this group is the Saskatchewan Co-operative Creameries, Limited, which has 37,000 members. The Manitoba Co-operative Dairies, Limited, is another strong body, having a membership of 6,140. The Alberta Dairy Pool has in affiliation four district pools, their combined membership being 6,118. Of the societies in British Columbia the Fraser Valley Milk Producers' Association is the strongest, having 3,538 members.

The name of the Canadian Poultry Pool has first place in the section devoted to Poultry Products, and is the agency through which the products of four provincial associations are marketed, these being located in the four western provinces, and whose names appear in the appropriate provincial subsection. All of these associations have large memberships,

that in Manitoba being the largest with 15,286 members, the Saskatchewan pool next with 7,347 members, Alberta third with 2,500, and British Columbia has 1,450. The other provinces are also represented in this group, the society in Prince Edward Island having 4,680 members in affiliation, while the association for Nova Scotia and New Brunswick has 2,300 members comprised in about 100 egg circles.

All of the provinces except Saskatchewan are represented in the Fruit and Vegetables section, the United Fruit Companies of Nova Scotia, Limited, having 50 affiliates, but only the names of 26 appear in the report, the remainder not having made returns. The only Prince Edward Island society in this group is composed of potato growers, and has a membership of 2,200. Of the seven Quebec societies recorded four are identified with the Quebec Federated Co-operative. The Ontario Fruit Growers' Association handles the export trade in apples and tender fruits of the majority of the shippers in the province through its representative in London, England, while the Niagara Packers, Limited, also an Ontario society, handles fruit growers' supplies in addition to members' produce. The only Manitoba society in this group is the Winnipeg District Market Gardeners' Co-operative Association, Limited, which has a membership of 1,000. The Associated Growers of British Columbia, one of 65 societies in the province included in this section, has a membership of 1,892, comprised in 31 affiliated associations, whose names are recorded in the report, and one of which is the Salmon Arm Farmers' Exchange, with 643 members.

Given a place in the Seed and Grain group is the Canadian Co-operative Wheat Producers, Limited, which reported a membership of approximately 150,000, comprised in the Manitoba, Saskatchewan and Alberta Wheat Pools, these three pools in 1924 establishing the Co-operative Wheat Producers, with headquarters in Winnipeg, as the central selling agency, and through which the grain of the members was marketed. Later other arrangements were made by which the provincial pools became their own marketing agencies. Subsequently the Manitoba Wheat Pool handed over the marketing of the grain of its members to the Manitoba Pool Elevators, Limited, which was formerly a subsidiary of the organization, but is now the major body and is operating the elevators and marketing the grain of those identified with it, of whom there are 10,000. The Manitoba Wheat Pool, though not operating, remains a legal entity, still having responsibilities. It is a participant in agreements and is a signatory to documents with the Government and other bodies. In the Saskatchewan Wheat Pool there are really four units: (*a*) Saskatchewan Co-operative Wheat Producers' Limited, the parent body; (*b*) Saskatchewan Pool Elevators, Limited, a subsidiary company formed for the purpose of owning and operating country elevators, and which owns and operates approximately 1,000 country elevators in Saskatchewan and five terminal elevators in Port Arthur, Ont.; (*c*) Saskatchewan Pool Terminals, Limited, formed for the purpose of operating the terminal elevators; and (*d*) Saskatchewan Wheat Pool Construction Company, Limited, the latter having been organized for the purpose of constructing elevators and other grain handling facilities necessary to the proper conduct of the business. In 1931 there was formed in Saskatchewan the Association Opposing the Compulsory Pool, with approximately 150,000 members, the object of the organization being to combat the 100 per cent compulsory wheat pool. The work of the association having been accomplished, it ceased to function in 1932. In 1927 the United Farmers' Co-operative Company, Limited, formed the Ontario Grain Pool as a unit of the company's business, the grain delivered by the members being sold by the Canadian Co-operative Wheat Producers, but in July, 1931, the Ontario Pool was discontinued, arrangements being made to serve the pool members and other grain growers in the sale of their wheat and other grains on a commission basis. The name of the United Grain Growers, Limited, also has a place in this section. This organization with operating offices in five provinces, has over 30,000 shareholders, comprised in 347 local associations, and under its charter has power to produce, manufacture, import, export, buy, sell, deal in and deal with all cereals, fruits, etc. The authorized capital is $5,000,000 divided into shares of $25 each.

In the Miscellaneous marketing group is included a number of the affiliates of the Quebec Federated Co-operative, the commodities handled including fish, tobacco, honey, etc. The Co-operative Agency of the Catholic Union of Farmers of Quebec, which conducts the business of selling the various products of its members, has identified with it 91 local syndicates and 519 clubs with a combined membership of 13,615. Another Quebec association with a strong following is the Provincial Co-operative Society of Breeders of Fur Bearing Animals, with 2,000 members. An important organization in this section is the United Farmers' Co-operative Company, Limited, an Ontario body, with shareholders numbering about 20,000. The company has several departments handling members' produce, it being claimed that its nine creameries make approximately one-tenth of Ontario's butter output. The sales of live stock handled by the company amounted to about $10,000,000.

The farm products department is maintained to assist Ontario farmers in the marketing of beans, potatoes, turnips, hay and straw. Commodities of all kinds are supplied to local clubs and co-operative companies, or direct to farmers, and the year's business totalled approximately $20,000,000. Another Ontario society of importance is the Ontario Honey Producers' Co-operative Company, Limited, with a membership of 1,100. The other associations in this section are mostly local bodies, with the exception of the First Co-operative Packers of Ontario, Limited, which like a number of the societies in this section, failed to send in a return, but their names nevertheless are retained in the report. A new co-operative with a large membership is the Alberta Co-operative Abattoirs, Limited, with 8,500 members, and is engaged in the marketing of packing house products.

PURCHASING ASSOCIATIONS

Under this heading is published the names of all known co-operative associations which purchase commodities for sale, including general merchandise (groceries, etc.), oil, building material, implements, gasoline, fertilizers, etc. Occupying first place in the list is the Scottish Co-operative Wholesale Society, Limited, which was founded as early as 1868, the registered office being in Glasgow, Scotland. The Canadian office was opened in July, 1906, and through which its Canadian business is transacted, which consists solely of the purchasing of wheat for the society's mills in Edinburgh and Glasgow, Scotland. Many of the associations in this section have small memberships, operating in sparsely settled districts, but all are important factors in the co-operative distribution of commodities in their respective localities.

In Nova Scotia there are two outstanding purchasing co-operatives, viz., British Canadian Co-operative Society, Limited, at Sydney Mines, with 3,478 members, and the Industrial Co-operative Society, Limited, at Sydney, with 1,500 members. In New Brunswick there is the Maritime United Farmers' Co-operative Company, which was formed for the purpose of wholesale purchasing of certain supplies for its members and for the distribution of commodities to the public through retail agencies. Owing to certain difficulties arising, it was found necessary to re-organize the company by getting a charter for each individual store and then to organize a buying agency as a central purchasing body for the several units. Another purchasing co-operative with a strong following is the United New Brunswick Agricultural Societies with 7,000 members. Of the 48 purchasing societies in Ontario the International Co-operative Trading Company, Limited, has 800 members and the Workers' Co-operative of New Ontario, Limited, located at Timmins, with branch stores at South Porcupine and Kirkland Lake, has 814 members. In Manitoba the Workers and Farmers' Co-operative Association, Limited, of Winnipeg, has the largest membership, viz., 428. The province of Saskatchewan appears to have made much progress in the establishment of co-operative purchasing societies, having 226 of the 467 in the whole Dominion. The Lloydminster and District Agricultural Co-operative Association is the largest purchasing society in the province, having 609 members, while Davidson Co-operative Association, Limited, has 395. In the neighbouring province the Alberta Oil Consumers' Co-operative, Limited, stands first with 1,761 members; the next as to numerical strength is the Wetaskiwin U.F.A. Co-operative Association, Limited, with 400 members. In British Columbia a new society, the C. G. Co-operative Association, located at Burnaby, has the largest number of members, viz., 978, the Fraser Valley-Surrey Farmers' Co-operative Association being next with 400 members.

CREDIT AND SAVINGS

In this section is given information concerning the Co-operative People's Banks (Caisses Populaire), a credit and savings plan which was founded in Quebec in 1901 by Commander Alphonse Desjardins, and which has developed to such an extent that there are now nearly 200 local People's Banks connected with the four district unions. The transactions of these banks are those of a mutual company, owing to the fact that they generally loan only to their shareholders; these have the right of making deposits over and above the amount of their shares. This dual privilege makes them a savings and credit institution. They are a popular credit available to agricultural and industrial classes. The shares are generally fixed at $5, which may be paid in instalments. Both shares and deposits may be withdrawn on demand. The liability of each shareholder is limited to subscription, which generally does not exceed $2,000 per shareholder. For the year 1930, the latest for which figures are available, the co-operative banks had 44,940 depositors and 14,278 borrowers; the number of loans granted was 18,857, and the total of such loans was $3,724,537, the profits realized

amounting to $645,096. There are three co-operative credit societies in Ontario, one of which operates in Toronto under the auspices of the Amalgamated Clothing Workers of that city. One of the others is an organization for civil servants in Ottawa, and has a membership of 2,000. Included in this group is the Alberta Association of Rural Credit Societies, with 41 local bodies in affiliation, operating under the provisions of the Alberta Co-operative Rural Credit Act, and, inter alia, is designed to act as the intermediary between the members of the affiliated societies and the department in charge of the act. There is also in Alberta the Co-operative Audit Bureau, which is a federation of provincially organized co-operative bodies to provide audit services to these organizations and to their local units, as well as three other local co-operative credit societies.

COMMUNITY HALL SOCIETIES

This group contains the names of societies formed for the purpose of providing a meeting place for the residents of the districts in which they have been established on a non-profit basis. The great bulk of these associations are operating in the province of Saskatchewan, which has 86 of the 92 reported societies, the remaining six being equally divided between Manitoba and British Columbia.

MISCELLANEOUS SOCIETIES

In addition to the associations whose names appear in the earlier classified groups there are a number of a miscellaneous character, some of which are bargaining societies, and others combine educational and social features with their co-operative trading activities. First in this section is the United Maritime Fishermen, with a membership of 3,300 comprised in 150 local unions, and which in addition to the study and practice of the principles of co-operation in all industrial activities, seeks among other things to promote and secure what is considered necessary and just legislation in the interests of fishermen. The name of the United Farmers of Canada, Saskatchewan Section, Limited, with a membership of 25,600, is recorded as an educational society to support and expound the idea of co-operation. There is a trading department in connection with the organization whereby it may be created into a co-operative wholesale society. Other important associations in this section are (1) Alberta Co-operative Sugar Beet Growers' Association, and (2) British Columbia Honey Producers.

NUMBER OF ASSOCIATIONS AND MEMBERSHIP

The total number of associations whose names appear in the report is 1,452. Where no return was received, as mentioned earlier, the information as to officers and membership as supplied in 1931 has been used in the present report. The following statement gives the number of societies, provincially arranged, in each group into which the co-operatives are divided, together with the respective memberships, the grand total of which is 525,216. This membership is considerably lower than that reported in 1931, some of the loss being accounted for by the dropping of the Association Opposing Compulsory Pool (referred to in a preceding section of this summary), which had 150,000 members, and the absence of figures for the membership of the Canadian Livestock Co-operative, which last year reported 75,000 members.

CO-OPERATIVE MARKETING ASSOCIATIONS

Under this heading will be found the names of all known Canadian co-operative marketing associations, divided into six commodity groups, together with a miscellaneous section which contains the names of societies handling a variety of products. A large number of the marketing associations also purchase supplies for sale to members, such as oil, gas, fertilizers, twine, etc. The associations whose operations extend beyond any particular province appear first in each group, the remaining co-operative marketing societies being provincially arranged, proceeding from east to west. The particulars given show (1) the date of organization, (2) number of members, and (3) the names and addresses of the presidents and secretaries:—

ONTARIO

The United Farmers' Co-operative Company, Limited—

Organized February 17, 1914. A farmer-owned and farmer-controlled concern with shareholders numbering approximately 20,000. Capital approximately $400,000.

At the annual meeting of the shareholders held in Toronto on December 7, 1931, statements and reports were presented to indicate that in spite of the difficult times that prevail the company stands in a strong position. Earnings for the year included approximately $91,000 available as patronage dividends to those who shipped cream and eggs to the company's plants.

Head office, Toronto creamery branch and the produce department are located at the corner of Duke and George streets, and the seed warehouse is situated on Church street, Toronto. In addition, creameries are operated at Wingham, Guelph, Galt, Renfrew, Arnprior, Cobden, North Bay and Bruce Mines. A live stock commission department operates at the Union Stock Yards, West Toronto. Egg grading stations have been established at about 10 different points in the province. Poultry and eggs are handled at these centres, and are also shipped on consignment to Toronto and Wingham. An egg pool is put into operation every spring with eggs taken in on an initial cash payment of approximately 75 per cent of the market price at time of delivery, and a final distribution of proceeds when the eggs are all sold in the late fall or early winter. Only extras and firsts go into storage for pooling. Those not fit for storage are sold outright and remittance of the proceeds is made promptly on a cash basis. The company makes approximately one-tenth of Ontario's total butter output in its nine creameries. Patrons receive payments twice a month almost on a par with total prices allowed by competitors and twice a year (March 31 and September 30) surplus earnings from the creamery branches are distributed in the form of patronage dividends. These distributions have amounted to close to $650,000 since this co-operative plan was adopted in 1924. The creameries at North Bay and Bruce Mines have been financed by the farmers in those two localities. The total sales of live stock handled by the company during the year amounted to approximately $10,000,000, or a weekly turnover of $200,000. Deliveries by truck for the year amounted to $1,500,000. A farm products department is maintained to assist Ontario farmers in the marketing of beans, potatoes, turnips, hay and straw. Consigned cars are handled on a commission basis. This department handles sales for a number of potato growers' associations, and also has organized two turnip-growing units, and one hay-producing unit with the object of having an assured supply to fill orders. Commodities of all kinds are supplied to local clubs and co-operative companies, or direct to farmers, but the company directs their energies chiefly to the handling of such goods as

are required in quantity each year, such as fencing, binder twine, fertilizer, seeds, flour and feed, salt, coal and coke, metal goods and shingles. The year's business totalled approximately $20,000,000. Nine directors elected annually direct the general policy of the company.

NEW BRUNSWICK

Maritime United Farmers' Co-operative Company—

This body was organized and incorporated in 1918 for the purpose of the co-operative wholesale buying of seeds, fertilizers, feeds, etc., for its members; and also for the cheaper distribution of commodities to the public by the establishment of retail grocery and dry goods stores in 31 centres, about half of which are still operating.

According to a statement furnished the Department, the promoters of this company found that it could not adequately function unless the form of organization was somewhat altered. Due to its original system (operating the whole organization under one charter) the manufacturers refused to give jobbers' prices on the commodities purchased. This was owing to the opposition of the retailers and wholesale houses in claiming that the association was a retail organization. Because of the situation thus created it was found necessary in 1922 to reorganize the company by getting a charter for each individual store unit and then organizing a buying agency, known as the Eastern Brokers, Limited, to act as a central purchasing body for the above-mentioned store units. The headquarters of the Eastern Brokers, Limited, are at Fredericton, N.B., and the general manager is J. G. Kirkpatrick.

CREDIT AND SAVINGS

QUEBEC

Co-operative People's Banks (Caisses Populaires)—

This co-operative credit and savings movement was founded in the province of Quebec by Commander Alphonse Desjardins, who, after many years' study of the subject, decided, with the co-operation of a few friends, to establish in Levis a co-operative bank known as La Caisse Populaire de Levis (The People's Bank of Levis), which commenced to function in January, 1901. With the success of this bank the movement developed until there are now many such co-operative banking associations operating in the province under the Quebec Co-operative Syndicate Act, with a membership of approximately 46,000. A central propaganda organization grouping representatives of the four regional unions (Quebec, Three Rivers, Montreal and Gaspe) was formed in 1925, the president of which is Rev. Father J. R. Trudel, parish priest at St. Marc de Shawinigan, and the secretary Mr. L. Letourneau, of Three Rivers. Rev. J. R. Trudel, of Shawinigan Falls, is in charge of the general direction of the movement, Rev. P. Grondin, Levis College, Levis, being its propagandist. The four regions above mentioned have 186 local People's Banks identified with them. The regional federation receives the deposits of the local banks, and loans on request any money required, provided an absolute guarantee is given. The local banks and the federations were founded under and by virtue of the Trade Unions' Act of Quebec. The federation pays the expenses of advertising and inspection. Inspection is made regularly every year by competent inspectors named by the federations. Notwithstanding repeated requests for the names and addresses of the officers and the membership of the four districts, no returns were received.

ALBERTA

Alberta Association of Rural Credit Societies—

Organized June 13, 1923, by representatives of the various Co-operative Credit Societies located in the province and operating under the Alberta Co-operative Credit Act under the name of Alberta Provincial Association of Co-operative Credit Societies. The society is now operating under the act passed in 1931 and cited as the Alberta Co-operative Rural Credit Act.

Number of members, 41 societies.

Objects.—Among the objects of the organization are: (1) To assist in co-ordinating the activities of the various societies throughout the province, and to assist them in procuring short term loans at the cheapest possible rate consistent with safety; (2) to act as intermediary between the members of societies and the Department in charge of the Act; also to be the intermediary between the members of societies and organized creditors; (3) to protect the various guarantors under the Act against possibility of loss and to eventually dispense with all liability under such guarantee; (4) to assist the government in providing adequate supervision so that loans made through the various societies shall be confined as nearly as possible to the actual requirements of the borrower so that he may continue in operation to the benefit of his previously interested creditors and at the same time receive sufficient credit.
